- Achieving High-End Looks Without Cost
- Business Development
- Developing Effective Presentations
- Earning Trust & Inspiring Confidence in Clients and Employees
- Delivering Project On-Time & Budget
- Handling Projects and Duties Concurrently
- Developing Unique Alternatives to Status Quo

PROFESSIONAL EXPERIENCE

HUE ARCHITECTURE, LLC

2006 To Present

www.huearch.com

Founder & Director

Founded and lead an inspired design group – Seeks to offer an avant-garde design approach in responding to client needs while maintaining a renewed sense of “serious play” in the practice of the “art & science” of Architecture.

Selected Projects:

- Design of an innovative new four-story, mixed-use office building overlooking Silver Lake in Dover, Delaware. The striking end result includes a first level restaurant (by others), two floors of Class-A office lease space, and residential condos on the fourth level
- Transformation of an existing office building into a new, holistic, boutique veterinary clinic for a client requiring an expedited schedule on a limited budget. Achieved dramatic results including a cohesive look, very low maintenance costs, and an extremely satisfied staff.
- Redesign and in-fill of an abandoned, multi-story block in downtown Wilmington, Delaware. The result is mixed-use boutique shopping, hospitality, offices, and residential.
- Retrofit of an existing strip shopping center space into a distinctive prototype gastro-pub for a longtime client/restaurateur’s expanding repertoire of eating establishments.

BECKER MORGAN GROUP

2000 To 2006

(via merger of previous firm)

Partner

Senior manager of a 25 person, multi-discipline office; a key part of a 150 person, regional A/E firm. I had full responsibility for day to day activities of the architecture and interior design satellite group and the mechanical and electrical engineering firm group, including interaction between other offices and partners.

Selected Results:

- Instrumental in the successful integration of the previous firms’ 25-person staff into a new multi-disciplined A/E firm. Relocated the existing, rural regional office into a redeveloping urban location.
- Served on the firms’ management team assisting in the adoption and implementation of policy, employee relations, planning and growth, and day to day operations.
- Member of the business development team involved in developing marketing strategies and effective presentations for all segments of the firm’s service offering including Education, Health Care, Hospitality, Commercial Interiors.

DIAMOND GROUP, INC.
Partner

1989 To 2000

- **One of five partners of a 25 person, multi-discipline A/E firm.** Full charge of architectural group including design and production activities as well as assisting in the coordination with the structural, mechanical, and electrical engineering staff. Assisted in developing the firm succession plan which became the merger with BM2OR into Becker Morgan Group above.

TEACHING EXPERIENCE**DELAWARE TECHNICAL and COMMUNITY COLLEGE**

1998 To 2009

Adjunct Instructor (*part-time*)

- **Sharing knowledge of the architecture and design industry with future practitioners.** Teaching classes in architectural design and presentation including drafting and graphics techniques.

EDUCATION & PROFESSIONAL DEVELOPMENT**MArch, Architecture;** 1989*Graduated first in class*

Texas A&M University, College Station, Texas

Bronze & Silver Executive Leadership Training 9/2005 – 12/2006

I-Per Drive, Wilmington, Delaware

Vice Chair Elect/ Director Salem County Chamber of Commerce**President** Habitat for Humanity Salem County**Member** Woodstown-Pilesgrove Board of Education**Trustee and Past Secretary** Woodstown-Pilesgrove Business Association**Past-President and Director** AIA Delaware**KUDOS & REFERENCES** (*Detailed contact information available upon request.*)

“HUE Architecture is a true pleasure to work with when designing a new project. Given a blank slate they create fantastic projects [...] HUE has a wonderful eye for design and we continue to receive rave reviews on the many projects that he has completed for us.” *Mike Zimmerman, BBC Properties; Client.*

“I was impressed with the ability of the HUE Architectural team to respond quickly to challenges during the fast-paced construction process in two separate projects [...] They were readily available to make changes as we discovered new surprises in our collection of historic buildings. They had a ‘can-do’ attitude that was wonderful and detailed drawings that were easy for all trades to follow [...]” *Don Meginley, Preservation Initiatives, Inc.; Client.*

“Hue and I have done two projects together. As a chef; I had high expectations of the planning and executions of the projects. Both times I have given Hue a small vision and he has taken it to a new level [...] and brought it to a new perspective that only Hue can imagine. Eleven years into the first restaurant it’s still standing the test of time [...] and the new restaurant speaks for itself. Working with Hue is an **absolute** pleasure and I can’t wait for the next project.” *Dennis J. Forbes, Owner/Chef, Cool Springs Fish Bar & Restaurant and Restaurant 55; Client*

RESUME ATTACHMENT – A

Details of Community Service:

- **Current Director/ Vice Chair Elect** – Salem County Chamber of Commerce
